1/ Welcome and Motivation

What is data science?

- **Data science:** wrangling, visualizing, and analyzing data to understand the world
- Who does data science? Tech companies, non-tech companies, nonprofits, governments.

Glassdoor's No. 3 best job in the U.S. has seen job growth surge 480%

BY MEGHAN MALAS

What problems are data scientists working on?

Causality

Causal Inference provides formal tools to tease out the true **incremental** value of an **impression** for each profile: Heterogeneous Treatment Effect (**HTE**)

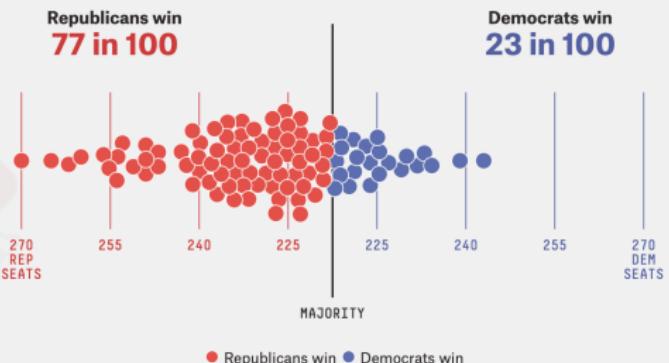

Compared to machine learning, causal inference allows us to build a robust framework that controls for confounders in order to estimate the true incremental impact to members

Prediction

UPDATED 17 MINUTES AGO

Republicans are *favored* to win the House

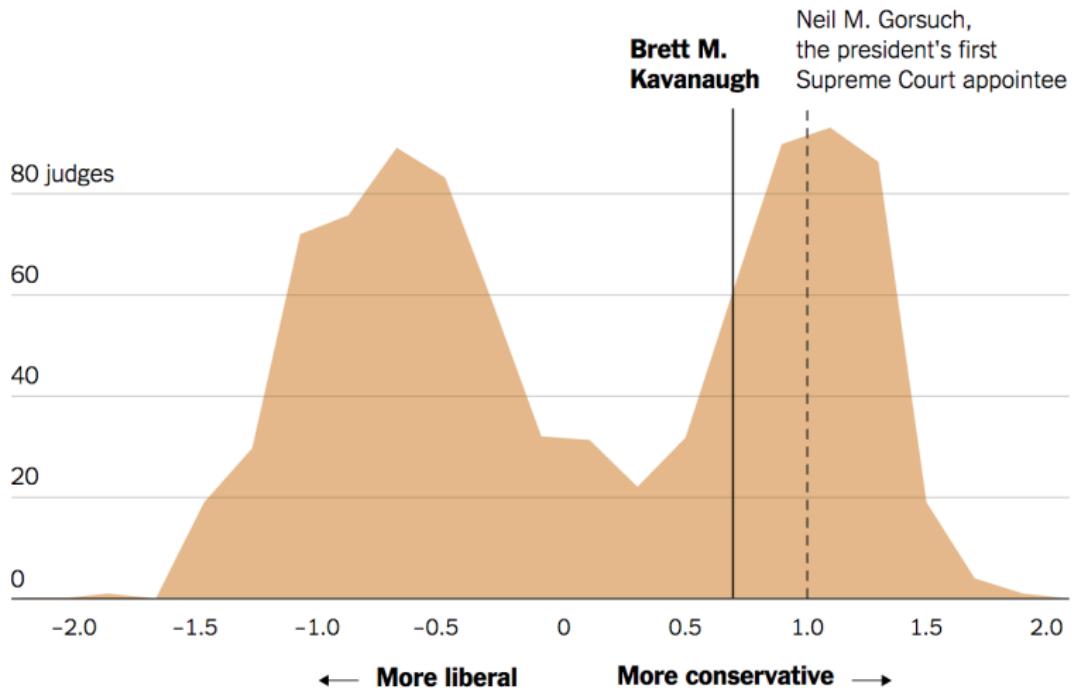

The Deluxe version of our model simulates the election 40,000 times to see which party wins the House most often. This sample of 100 outcomes gives you an idea of the range of scenarios the model considers possible.

We use numbers to express uncertainty. Upset wins are surprising but not impossible.

Measurement

How Kavanaugh's Ideology Compares With Other Federal Judges

Based on the campaign finance scores of all current and former federal district and court of appeals judges nominated since 1980. | Source: [Database on Ideology, Money in Politics, and Elections](#); Adam Bonica, Stanford University Department of Political Science; Maya Sen, Harvard University, Kennedy School of Government; Adam Chilton and Kyle Rozema, University of Chicago Law School.

Extensive Data Shows Punishing Reach of Racism for Black Boys

By EMILY BADGER, CLAIRE CAIN MILLER, ADAM PEARCE and KEVIN QUEALY MARCH 19, 2018

Follow the lives of 5,734 boys who grew up in rich families ...

...and see where they end up as adults:

Adult outcomes reflect household incomes in 2014 and 2015.

Making government work better

The screenshot shows the CityScore homepage. At the top, there's a navigation bar with links for 'HOME', 'MAYOR', 'CITYSCORE', 'PUBLIC NOTICES', 'PAY AND APPLY', 'FEEDBACK', and 'TRANSLATE'. Below the navigation is a large banner with the 'CITY SCORE' logo. The main content area has a heading 'CITYSCORE' and a paragraph explaining the initiative. A section titled 'THE SCORE' features a horizontal scale from 1.0 to 1.02, with arrows pointing left and right and explanatory text about performance relative to the target.

Last updated: 8/20/2017

CITYSCORE

CityScore is an initiative designed to inform the Mayor and city managers about the overall health of the City at a moment's notice by aggregating key performance metrics into one number. Here we will provide you with an overview of the CityScore tool and data, but more importantly we will show you how we are using CityScore to make improvements across the City.

THE SCORE

TODAY'S SCORE: 1.02

Score below 1.0 indicates that performance is below the target.

Score above 1.0 indicates that performance is exceeding the target.

Topic	Day	Week	Month	QTR
311 CALL CENTER PERFORMANCE			0.94	0.93
CODE ENFORCEMENT ON-TIME %	1.23	1.24	1.24	1.24
CODE ENFORCEMENT TRASH COLLECTION	1.25	1.18	1.15	1.10
GRAFFITI ON-TIME %	0.33	0.13	0.20	0.27
MISSSED TRASH ON-TIME %	1.21	1.20	1.20	1.20
PARKS MAINTENANCE ON-TIME %	0.82	0.83	0.90	0.88
POTHOLE ON-TIME %	1.25	0.88	0.69	0.67
SIGN INSTALLATION ON-TIME %	1.00	0.23	0.24	0.49
SIGNAL REPAIR ON-TIME %	1.25	1.25	1.10	1.09
STREETLIGHT ON-TIME %	0.55	0.60	0.56	0.54
TREE MAINTENANCE ON-TIME %	1.19	1.18	1.17	1.13
ON-TIME PERMIT REVIEWS	0.88	0.88	0.85	0.81
LIBRARY USERS	1.51	1.42	1.43	1.42
BPS ATTENDANCE				0.90
BFD RESPONSE TIME	0.91	0.94	0.94	0.94
BFD INCIDENTS	1.03	0.92	0.93	0.94
EMS RESPONSE TIME	0.90	0.84	0.84	0.84
PART 1 CRIMES	2.26	1.48	1.41	1.40

About me

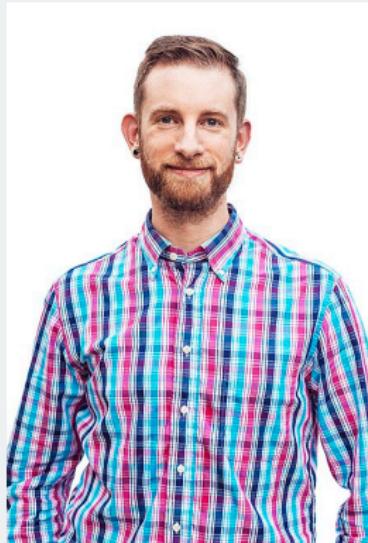

What will you learn in this class?

- Summarize and visualize data
- Wrangle messy data into tidy forms
- Evaluate claims about causality
- Be able to use linear regression to analyze data
- Understand uncertainty in data analysis and how to quantify it
- Use professional tools like R, RStudio, git, and GitHub

Teaching philosophy

- Deliberate pacing and tons of support.
- Emphasize intuition and computational approaches over mathematical equations.
- Practice, practice, practice.

Pep talk, part I

Hadley Wickham (chief data scientist at RStudio)

It's easy when you start out programming to get really frustrated and think, "Oh it's me, I'm really stupid," or, "I'm not made out to program." But, that is absolutely not the case. Everyone gets frustrated. I still get frustrated occasionally when writing R code. It's just a natural part of programming. So, it happens to everyone and gets less and less over time. Don't blame yourself. Just take a break, do something fun, and then come back and try again later.

Pep talk, part II

Hadley Wickham

@hadleywickham

...

The only way to write good code is to write tons of shitty code first. Feeling shame about bad code stops you from getting to good code

Should I take this course?

- Prerequisites: **NONE** (no prior coding, statistics, data science)
- Gov 50 fulfills Gov methods requirement, data science track, and QRD
- Material useful to students interested in political science, sociology, economics, public policy, health policy, and many other fields in the social sciences.

Class meetings

- Lectures:
 - Broad coverage of the course material.
 - Coding demonstrations (follow along with your laptop!)
 - Slides/videos will be posted to Canvas shortly before lecture.
- Section:
 - Guided practice through problems and concepts led by our amazing TFs.
 - Material in section will closely mirror assignments.
 - Open sectioning: go to what is convenient for you.
 - We will have certain sections for students who are more/less comfortable with the material

Computing

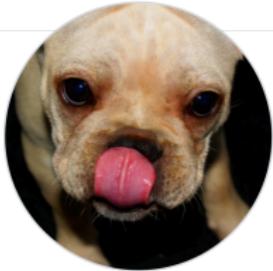

- We'll use the R statistical environment to analyze data
 - It's free
 - Extremely popular for data analysis
 - Academics, 538, NYT, Facebook, Google, Twitter, nonprofits, governments all use R.
 - Huge benefit to your resume to have R skills.
- Interface with R via a program called RStudio
- Problem Set 0 on the website helps get everything installed.
- Lots of help in section, study halls, office hours.

git and GitHub

- Other core tools: git and GitHub
 - **Version control system:** an archive of project versions.
 - Allows you to revert back to old versions easily
 - Makes collaboration much more manageable.
- Will feel very odd at first, but you git used to it
- Why learn this now?
 - Knowing git/GitHub is a huge plus for data jobs.
 - Your GitHub profile can showcase your amazing new skills with data!

Textbook

- 3 primary textbooks (links on syllabus):
 - Modern Dive (free online)
 - “Quantitative Social Science: An Introduction in tidyverse” by Kosuke Imai (not free)
 - Introduction to Modern Statistics (free online)
- We'll move back and forth.
- Sometimes same material in two/three different books. Choose which helps most!

Assignments

- Roughly weekly homeworks throughout semester
 - Posted on Thursday morning, due following Wednesday.
 - Dates on syllabus
 - Lowest score dropped.
- Two take-home “exams” which are just HWs done by yourself.
- Final project: a data essay
 - Find data, pose a research question, answer it using data.
 - Submitted as a public GitHub repository and website
 - First item in your public data portfolio

- Getting practice with R can be overwhelming, so we'll introduce new skills through online tutorials.
- Guided practice on R, helping to introduce new concepts.
 - Low stakes/stress: graded simply on completion.
 - Generally, due on Monday nights, but see schedule
- Lecture/HW won't be the first time you're trying some code!

Ed discussion board

The screenshot shows the ed platform's interface. On the left, there's a sidebar with a 'New Thread' button, course categories like COURSES (GOV 50 selected), and sections like Drafts and Scheduled. The main area has a search bar and a 'Welcome' thread in the GOV 50 course. The right side features a 'New Post' interface with tabs for Question, Post, and Announcement. It includes a title input, category selection (General, Lectures, Sections, Problem Sets, Assignments, Social), and a rich text editor with a code snippet example. At the bottom, there are checkboxes for Pinned, Private, Anonymous, Anonymous Comments, and Megathread, along with a Draft saved message and a Post button.

Grades

- Grade breakdown as follows:
 - R tutorials (10% of final grade)
 - Homeworks (40% of final grade)
 - Exams (30% of final grade)
 - Final project (20% of final grade)
- Final grade is curved
- **Bump-up:** we bump up grades of students close to the cutoff who make valuable contributions to the course.

Study Halls

- Study Halls: a place to work on Gov 50 and get help.
 - Will happen weekly, exact number of hours will depend on enrollment.
 - Peer tutors with experience in statistics and R will be on hand to help you if you get stuck or have question.
 - Best to come in groups and work together, grab a tutor when stuck.
- Group Study Hall on Tue/Wed evenings before problem set is due.
- Bottom line: **we want you to succeed in this class!**

What should you do today?

- Try to get everything set up on your computer (Problem Set 0)
 - Problem Set 0 drop-in help sessions this week!
- Start Tutorial 1 on basics of R and data visualization
 - Can be done on the web before installing R on your computer.
- **Tell your friends:** data science is more fun with friends along for the journey.
